

Derar Sirs, Please stop from the take over of our ariwaves by companies such as Viacom on Clear Channel. They do not reflect the needs of our communities. Native news and community participation is ignored by these companies. I have been the executive director of American Indain Airwaves/coyote radio that airs on KPFK (Los Angeles) and KCSB (Santa Barbara) both community radio stations for 15 years. We need to protect the deversity of our airwaves and these airwaves need to be indiepdent and need to have assitional low powered fm radio space. More independent voices not less is needed for our communities. Please stop these buyout by Viacom and Clear Channel to expand. The market forces are not always good for our communities and our open public spaces. Thank you, Marcus Lopez, director , American Indain Airwaves/Coyote Radio
